# **JSS-370N**

### PP BLOCK COPOLYMER

#### **General Information**

## Description

JSS-370N is a nucleated impact block copolymer which is produced by adding a heterophasic structure inside homo polypropylene.

This grade is designed to be processed in conventional Injection molding equipment.

JSS-370N shows good processability, high impact strength and stiffness, and super strength and excellent heat stability.

# Applications

- High quality housewares, Industrial parts, Automotive parts
- Home appliance, Thin-wall container, Compound base resin etc.
